HBO-ICT 09/2022 – Present | Amsterdam
Hogeschool van Amsterdam
Bachelor of Applied Science

Havo 2017 – 2022 | Hoorn, Nederland
Oscar Romero

Skills

Web Development
HTML/CSS, Vue, Bootstrap, Streamlit, Javascript, Typescript, React

Programming & Scripting
Python, Java, Kotlin, Node.js, Express, Ollama

Databases
SQL - *MySQL, PostgreSQL*
NoSQL - *MongoDB*

Infra & DevOps
CI/CD, Git, Kubernetes, ArgoCD

Personal Project

Invoice Parser
Developed an automated Python-based PDF parser for invoices and financial statements, leveraging Tesseract OCR and Ollama to extract a wide range of financial and invoice data, including amounts, dates, vendor names, VAT numbers, and other relevant details.

School Projects

Election Results Site 2024
Developed an election results dashboard with Vue, Spring Boot, JWT, Docker, PostgreSQL, and a real-time forum for user discussions.

Student Casino 2024
Built a dynamic gambling website with HTML, CSS, JS, PHP, and SQL, featuring coin-based gameplay and a virtual store for student items.

Project Agile Development 2023
Built an interactive dashboard for AUAS Open Day with Node.js, Express, JavaScript, Bootstrap, and Cypress, featuring an interactive map, FAQs, trial lesson sign-ups, and organizer management. Managed via GitLab.
